October 25, 2010

To the Trustee(s)  
Community Coordinated Care for  
Children, Inc. 401(k) Plan

We have conducted a DOL limited-scope audit of the financial statements and related supplemental schedule of Community Coordinated Care for Children, Inc. 401(k) Plan ("the Plan") for the year ended December 31, 2009 and have issued our report thereon dated October 13, 2010. As permitted by 29 CR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and schedule taken as a whole. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter dated July 30, 2010. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

*Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are primarily described in Note B to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2009. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based upon management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate(s) affecting the financial statements was the valuation of investments.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure(s) affecting the financial statements were Note A as relates to the description of the Plan; Notes C and D as relates to investments, their valuation, and the Plan custodian's certification as to various Plan information (i.e. limited scope audit report); Note F, G, and H as to operation of the Plan; and Note J as to risks and uncertainties as regards the investments.

**INDEPENDENT AUDITORS' REPORT**

To the Trustees  
Community Coordinated Care for Children 401(k) Plan  
Orlando, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of Community Coordinated Care for Children 401(k) Plan ("the Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets held for investment purposes at end of year. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets summarized in Note D, and executes related investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

## NOTES TO FINANCIAL STATEMENTS

### COMMUNITY COORDINATED CARE FOR CHILDREN, INC. 401(K) PLAN

#### NOTE A – DESCRIPTION OF PLAN

The following description of the Community Coordinated Care for Children 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

- a. General – the Plan is a 401(k) Plan (i.e. a defined contribution plan) which covers all employees of Community Coordinated Care for Children, Inc. ("the Organization/Employer") who have attained twenty-one years of age and are employed for a 12 consecutive month period during which they complete at least 1,000 hours of service as an employee. The Plan was adopted effective January 1, 1990. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- b. Contributions – currently, each year, participants may contribute up to 25% of pretax annual compensation, as defined by the Plan. The Organization makes a contribution each year. For the year ended December 31, 2009, the Organization contributed 25% of the first 4% of total compensation ("the base") that an eligible participant contributed to the Plan. The Organization also made a safe harbor profit sharing contribution of 5% of total compensation for eligible participants. The maximum Employer contribution is 6% of the base.
- c. Participant Accounts – each participant's account is credited with an allocation of the Organization's contribution (see above) and the participant's voluntary contribution; an allocable portion of the Plan's forfeitures credited based on the ratio of the participant's compensation for the Plan year to the total compensation of all Plan participants for that Plan year; an allocable portion of the Plan's earnings/(losses); and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- d. Vesting – participants are immediately vested in all contributions and any allocations of prior years' forfeitures.
- e. Investment Options – upon enrollment in the Plan, the participants direct the investment of 100% of the contributions in accordance with Principal Life Insurance Company's ("Plan custodian") investment contract (see Note C). Participants may change their investment options periodically.
- f. Plan Benefits – participants are entitled to a lump sum distribution of their account balance at normal retirement age (59 1/2). A participant whose employment with the Organization terminates for reasons other than retirement, death or disability shall be entitled to receive the vested value of their account in a lump sum distribution.
- g. Participant Loans – participants may borrow from their investment accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of 50% of their vested account balance, reduced by any outstanding loan balance, or \$50,000, reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made. The loans are secured by the balance in the participant's account and bear an interest rate of 3.50% for 2009. Principal and interest is paid ratably through bi-weekly payroll deductions. The interest rate is established by the Employer annually and is based upon the concept of a reasonable rate of return.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

COMMUNITY COORDINATED CARE FOR CHILDREN, INC. 401(K) PLAN

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – the financial statements of the Plan are prepared under the accrual method of accounting.

Estimates – the preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments Valuation – the Plan's investments are stated at fair value.

Payment of Benefits – are recorded when paid.

Forfeited Accounts – during the year ended December 31, 2009, none of the nonvested participant account balances from prior years were forfeited.

NOTE C – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into an investment contract with Principal Life Insurance Company. Principal Life Insurance Company maintains certain of the Plan's assets as follows:

Guaranteed Interest Accounts – these accounts provide a guaranteed interest rate for a specified period of time as determined by the Plan custodian, or allowed, by the Plan. The rate credited is the rate in effect on the day when each deposit is directed to the account. All rates credited during the 12-month "deposit year" are averaged into a single composite rate. The guaranteed interest accounts are supported by Principal Life Insurance Company's general account. The fair value of the accounts is the amount that would be paid any time funds are withdrawn or transferred within the Plan prior to their maturity (for an event other than death, disability, termination, or retirement) and reflects a surrender charge, if applicable, according to the terms of the Plan's contract.

Pooled Separate Accounts – these accounts hold assets allocated to each separate account. The value of each separate account (27 accounts at December 31, 2009) is determined at the close of each business day based on fair value. These accounts are separate accounts (not part of Principal Life Insurance Company's general account (i.e. segregated)); income, gains, or losses from the assets in each account are credited to or charged against that account without regard to other income, gains or losses of Principal Life Insurance Company or any other separate account.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

COMMUNITY COORDINATED CARE FOR CHILDREN, INC. 401(K) PLAN

NOTE D – INVESTMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

Input levels by investment category are as follows:

	Fair Value	Fair Value Measurements Using:	
		Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<u>December 31, 2009</u>			
Guaranteed Interest Accounts	\$ 681,005	\$ -	\$ 681,005
Pooled Separate Accounts	3,635,536	3,619,911	15,625
Participant Loans	495,764	-	495,764
	<u>\$ 4,812,305</u>	<u>\$ 3,619,911</u>	<u>\$ 1,192,394</u>
<u>December 31, 2008</u>			
Guaranteed Interest Accounts	\$ 481,854	\$ -	\$ 481,854
Pooled Separate Accounts	2,891,850	2,878,087	13,763
Participant Loans	306,064	-	306,064
	<u>\$ 3,679,768</u>	<u>\$ 2,878,087</u>	<u>\$ 801,681</u>

Fair value measurements establish a fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority (i.e. significant unobservable inputs). The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

*Level 2 Fair Value Measurements*

According to the Plan custodian, the pooled separate accounts are invested in investments such as stocks, mutual funds, short-term investments, bonds, etc. Principal Life Insurance Company owns the underlying investments in the separate accounts. The underlying measurements for the separate accounts have observable (Level 1 or 2) inputs, including quoted prices for similar assets in active or non-active markets. While the underlying asset values are quoted prices, the NAV (net asset value) of a separate account is not publically quoted; accordingly, the fair value of the referenced accounts are reported at Level 2.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

COMMUNITY COORDINATED CARE FOR CHILDREN, INC. 401(K) PLAN

NOTE D – INVESTMENTS – CONTINUED

*Level 3 Fair Value Measurements*

The guaranteed interest accounts and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest accounts is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement; and participant loans are reported at unpaid balances which approximates fair value. There is no existing external exit market for these loans as all transactions are restricted to participants and the Plan sponsor.

A separate account, Principal U.S. Property, invests mainly in commercial real estate and includes mortgage loans which are back by the associated properties. These underlying real estate investments have unobservable Level 3 pricing inputs. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate data inputs. In addition, each property is appraised annually by an independent appraiser.

The effect of Level 3 inputs on net assets for the year ended December 31, 2009 is as follows:

<u>Investment Category</u>	<u>Beginning Balance</u>	<u>Total Gains or Losses</u>	<u>Interest Credited</u>	<u>Purchases, Issuances, Settlements</u>	<u>Ending Balance</u>	<u>Unrealized Gains or Losses</u>
Guaranteed Interest Accounts	\$481,854	\$(12,959)	\$17,438	\$194,672	\$ 681,005	\$(12,959)
Separate Account -						
Principal U.S. Property	13,763	(5,558)	-	7,420	15,625	(5,471)
Participant Loans	306,064	-	-	189,700	495,764	-
	<u>\$801,681</u>	<u>\$(18,517)</u>	<u>\$17,438</u>	<u>\$391,792</u>	<u>\$ 1,192,394</u>	<u>\$(18,430)</u>

The above and following information included in the accompanying financial statements and supplemental schedule was obtained from financial information that has been prepared and certified as complete and accurate by the Plan custodian. The Plan custodian's certification included the summary of plan transactions, the employer fund statement and the schedule of assets held for investment purposes at end of year. The following table presents the fair value of the investments (under the Plan custodian's certification) at December 31, 2009 and 2008. Investments, to include those that represent five percent or more of the Plan's assets, are separately identified.

## NOTES TO FINANCIAL STATEMENTS – CONTINUED

### COMMUNITY COORDINATED CARE FOR CHILDREN, INC. 401(K) PLAN

#### NOTE E – PARTICIPANT LOANS

During the year ended December 31, 2009, Plan participants had borrowed \$350,346 against their account balances (see Note A). Loan repayments totaled \$151,934 in principal and \$12,250 in interest in 2008. Taxable loan payment distributions (which are included in benefit payments on the statement of changes in net assets available for benefits) made during 2009 were \$8,712. Repayments of principal and interest were reallocated to the Plan participants' investment accounts as established by the Plan.

#### NOTE F – PLAN TERMINATION

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Organization may determine.

#### NOTE G – FEDERAL INCOME TAX STATUS

The Plan has adopted a prototype "standardized" plan and the prototype sponsor has received a determination letter from the Internal Revenue Service indicating that the Plan is a qualified plan meeting the requirements of applicable sections of the Internal Revenue Code. Accordingly, Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code.

#### NOTE H – PLAN ADMINISTRATION

Certain administrative functions are performed by officers or employees of the Organization. No such officers or employees receive compensation from the Plan. Generally, administrative expenses, other than those expenses charged directly to the Plan by Principal Life Insurance Company, are paid directly by the Organization.

#### NOTE I – BENEFITS PAYABLE

Benefits payable to employees who withdrew from the Plan were \$325,189 and \$298,003 at December 31, 2009 and 2008, respectively.

#### NOTE J – RISKS AND UNCERTAINTIES

The participants through the Plan invest in various investment securities (see Note A). Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

#### NOTE K – SUBSEQUENT EVENTS

Subsequent to the year ended December 31, 2009 (effective January 1, 2010), the Plan canceled its investment contract with Principal Life Insurance Company and entered into a similar investment contract with John Hancock Life Insurance (USA); accordingly, the Plan's assets were transferred to John Hancock Life Insurance (USA) on February 9, 2010.

Subsequent events were evaluated through October 13, 2010, which is the date the financial statements were available to be issued.
