The Early Learning  
Coalition  
of Osceola County /  
OEL

U.S. Department of  
Health  
and Human Services

Dear parents and guardians:

Coronaviruses (CoV) are a large family of viruses that cause illness ranging from the common cold to more severe diseases. Common signs of infection include respiratory symptoms, fever, cough, shortness of breath and breathing difficulties. In more severe cases, infection can cause pneumonia, severe acute respiratory syndrome, kidney failure and even death.

Due to the effects of this pandemic, the 4C management team has made the decision to close all Head Start and Early Head Start classrooms at this time. We will remain closed until further notice. The health and safety of your children and our staff is of the utmost importance and is the primary reason for this decision.

We apologize for any inconvenience this may cause for you and your family. Your family advocate will be in touch with you to provide the most up to date status regarding our centers and reopening dates. Additionally you may monitor the **4C Head Start** Facebook page for frequent updates.

The Centers for Disease Control along with local media outlets are providing information on COVID-19 several times per day if you choose to remain informed. Please remember we are here for you if you need to reach out to us. As always it is extremely important that you remain safe.

Sincerely,

Tatiana Gonzales

Head Start/ Early Head Start ERSEA Coordinator
